Notes

Data

Numerical

Categorical

Discrete

Continuous

Nominal

Ordinal

Final Project Criteria:

- Data understanding

- Data Cleaning (Nulls, Outliers, Inconsistent errors, duplicates)

- Analysis (5 Meaningful analysis questions)

- Feature Engineering (If applicable)

- Data Preprocessing for ML (Scaling, Encoding, Imputing, Imbalance)

- Applying machine learning model (at least 2)

- Applying Cross validation

- Make sure to provide comments as much as possible
